For Luzzato.

From text your telegrams it seems you have inexact idea of forces at grips in Italy and even ignorant of dates facts I sent you at the time. From July 1941 to Dec. 1942 I sent you via British Legation some fifty letters information bulletins and various documents. Unquestionably ~~this~~ correspondence addressed to you reached London ~~xxxxx~~ since London has several times requested clarification from me on certain points. This means correspondence intercepted ^{transmitting} held by/office. ~~charged-with-transmitting-it~~ My indignation these Fascist methods inexpressible here. Any event cannot transmit details on our party which could be used against us. Can tell you ISP has central committee in Italy and political secretariat abroad which is myself plus some technical elements. My tendency (inclination?) was to stimulate ^{central} ~~internal~~ committee to act politically by itself but so far situation has prevented this. Perfect agreement on all questions has existed between myself and central committee for past two years.

For Luzzato.

(1).
Your message of Aug. 6./ Removal from Sicily of anti-Fascist leaders forced solicited sending somebody from abroad. Montana ^{will go} going from New York with instructions from me. Northern Italy ~~presently~~ no need emigrants at present nor later all probability.

(2). Incomprehensible to me why I should go London.

(3). Partito d'Azione is amalgamation liberal elements under Salvatorelli plus remnants republican party, GL and other remnants.

Is fairly strong but orientation varies from city to city is Giolittiano in Turin. Beware appeals appearing La Stampa Turin for which Salvatorelli having gone elsewhere is not responsible.
