Message from Southern Italy:

My declarations met unanimous approval here. All agree that necessary to support Badoglio while Allies have confidence in him and for purpose of efficiently waging war against Germany. However, as long as pro-Fascists and cowards have feeling that they are protected it is impossible to arouse whole-hearted moral unity.

In addition I should say that we are preparing an anti-Fascist program for the masses. I have met some serious young Socialists in Southern Italy but I do not know of any important ones that have escaped to this region. I expect to remain in Naples with my small staff until Rome is free.
