July 4.

For S. from A.

I am greatly heartened by your messages of June 9 and 10 and especially the indication of the adherence of associates to the principles of democracy in spite of complications and hardships. With regard to your disposition of our funds, I feel complete confidence in any use which is approved by you and Modigliani. I shall have an opportunity to investigate problems personally, as I expect soon to be sent to Italy, representing American Labor.
